At the heart of astrology lies the belief in four fundamental elements: fire, air, water, and earth. These elements are associated with specific zodiac signs and provide the groundwork for understanding their characteristics and how they interact with one another.

Each zodiac sign represents a unique blend of these elements, shaping the traits and qualities of individuals born under it. By discovering your zodiac sign, you gain a starting point for interpreting your birth chart, which is like a cosmic blueprint of your personality.

However, interpreting a birth chart may seem intimidating at first, with symbols and complex graphs scattered across the page. Fear not! Step by step, we will uncover the secrets of deciphering this celestial puzzle and reveal the hidden story it tells about your life.

## **Planets and Houses: The Celestial Actors**

Once you have grasped the basics, it's time to delve into the fascinating world of planets and houses. Each planet represents a different aspect of our being, from love and relationships to career and inner growth.

Similarly, the twelve houses in a birth chart symbolize different areas of our lives. Throughout this guide, we will explore the nuances of each planet and house, discovering their symbolic meanings and significance. You will learn how to decode their interactions and understand the dynamic interplay between different celestial forces in your birth chart.

A key aspect of astrology is the study of planetary aspects and transits. Aspects refer to the angles formed between planets in the birth chart, indicating the nature of their relationship. Understanding these aspects is crucial for unraveling the complexities of one's personality and identifying potential challenges and opportunities in life.

Transits, on the other hand, involve the movement of planets in relation to our birth chart. By tracking planetary transits, we can anticipate powerful shifts and significant events in our lives. These cosmic conversations reveal the ebb and flow of energy, allowing us to make informed decisions and take advantage of auspicious alignments.

From the article:

"Astrology natal charts are not being interpreted correctly by astrologers. They in turn mislead the person that is having their chart read. To read an astrology natal chart correctly, there needs to be a deep foundation in spirituality.

I'll give you an example. A person that has a negative configuration in their chart, where they will not be able to get married in their lifetime. The way astrologers interpret that now days is that the person has done something wrong in previous lifetimes when it comes to marriage, therefore, they are being punished now by getting a negative aspect in their natal chart when it comes to marriage. That is absolutely wrong interpretation of astrology.

Nothing in an astrological natal chart is about what you have done properly or improperly in previous lifetime.

When a person has a problem with getting married in this lifetime it is because their spiritual journey in this lifetime needs to focus on higher values of life. They are not here to establish a lineage of children. They are here to understand abstract, spiritual, psychological aspect of life. Therefore, they are blocked from marrying so that their journey into happiness will only happen when they accomplish a personal goal of growth.

If they were allowed to get married, they would settle down into a family. Then they would not be able to follow their necessary path of the spiritual. They would be bogged down by family responsibilities. Since they are here to have a personal growth of their soul, mind and heart, they were born into an astrological configuration that forces them to focus on what they are supposed to focus on. In this case, on personal growth. A person that does not have a family, has no fulfillment in life. Therefore, the only way they can find fulfillment is by achieving some personal growth.

That person came down to Earth to grow in some personal way. So that they will not be blocked by the responsibilities of a family, they were blocked with regards to marriage. The only way alone person can find happiness, if they do not raise a family, is via personal growth."
