A Son Wrongfully Accused: The Casey Morton Case

In the small town of Riverton, the life of Casey Morton, a hardworking young man, took a devastating turn when he was accused of brutally murdering his own mother in their suburban home. Despite having an alibi and no physical evidence linking him to the crime scene, the prosecution built a compelling narrative that convinced the jury of his guilt. This unbelievable miscarriage of justice left Casey scarred for life and serves as a haunting example of wrongful convictions.

The Evidence That Lied: The Johnson Twins Case

This shocking tale of institutional bias, unreliable witnesses, and a justice

system desperately trying to find a scapegoat will leave you questioning how often such miscarriages of justice occur without ever being rectified.

When Sarah Thompson mysteriously vanished from her small town, the entire community was desperate for answers. As investigators scrambled to find the truth, they fixated on a neighbor with a troubled past, bringing him to trial for first-degree murder. Without any concrete evidence, the case hinged upon circumstantial factors and media pressure. Years later, new information emerged, revealing a shocking twist that exposed the true killer. The tragic loss of Sarah and the dubious manner in which the case was handled serve as a glaring reminder of how easily justice can be compromised.

The Framed Innocence: The Peter Richards Case

The case of Peter Richards sent shockwaves throughout the nation, as a man with no criminal record was charged with the merciless killing of his

Convicted of murders they did not commit... astonishing cases of miscarriage of justice that led to rethinking the capital punishment Download FREE with kindle Unlimited!

Ever since DNA evidence started exonerating death row inmates, public concern about wrongful executions has been on the rise. It has been such a source of worry that some states have abolished the death penalty entirely.

Although we want to believe that the criminal justice system designed to protect us is infallible, mistakes can be and are made. The ultimate tragedy

is when an innocent person is executed for a crime that he or she didn't commit.

Inside find three stories of wrongful executions in the UK, where justice was swift and limitless appeals were not supported. In one case the person was actually exonerated forty-six years after being hanged.

- **Eliza Fenning and the Devilish Dumplings:** In March 1815, the entire household of Robert Turner, a London law stationer, was struck by a mysterious illness. When a search was made for its cause, a substance believed to be arsenic was found in the dish used to mix up yeast dumplings the family had eaten for dinner. Although she had fallen ill too, Eliza Fenning, the twenty-one-year-old maid who had prepared the dumplings, was charged with attempted murder and hanged. Her execution is still regarded as one of Britain's worst miscarriages of justice.

- **The Messalina of Ilford:** Edith Thompson and her younger lover, Frederick Bywaters, were executed in January 1923 for the murder of Edith's husband. Although Mr. Bywaters confessed and insisted that Mrs. Thompson had nothing to do with the murder, she was held equally responsible for the crime because of some letters that expressed hostile intent toward her overbearing spouse. Her supporters believed that she had really been condemned for being an adulteress. There is currently a campaign in process to win her a posthumous royal pardon.

- **"Let Him Have It":** On January 28, 1953, nineteen-year-old Derek Bentley was hanged at Wandsworth Prison for the murder of a Metropolitan Police constable. Bentley had not fired the fatal shot, but his sixteen-year-old accomplice was too young to receive the death penalty, so the mentally

impaired Bentley went to the gallows instead. In 1998, thanks to four decades of vigorous campaigning by his family, he received a posthumous pardon. His execution was instrumental in the abolition of capital punishment in the UK.

It is too late to save these victims of wrongful execution, but the time has come to accept that, regardless of our individual feelings about the death penalty, all future debates on the subject must proceed with the knowledge that innocent people have been put to death.
