On the 1st of April, 1924, Adolf Hitler was sentenced to five in years in prison.

In 1923 Hitler had hijacked a political meeting in one of Bavaria's beer halls, firing a pistol shot into the ceiling and declaring that "The National Revolution has begun!"

Leading his rag-tag band of followers into the heart of Munich, Hitler was finally stopped by a volley of fire from the Bavarian police, next to the elegant Feldherrnhalle.

Sixteen of Hitler's acolytes were killed that day, whilst others were injured, arrested and scattered as fugitives.

Hitler, his arm dislocated in the resulting mêlée, fled to rural Bavaria, where he was picked up by the police two days later.

Hitler's 'National Revolution' had been crushed and his political stock had plummeted. Even the grandees of his own party swiftly sought to dissociate themselves from his rash, revolutionary ambitions.

Isolated and depressed, Hitler spent much of his incarceration dictating his autobiography – 'Mein Kampf'.

But when his trial came around it soon became apparent he could use the publicity as a platform to rally support for his cause.

And soon his embittered paranoia was transformed into a new determination and confidence.

'His Struggle' is the story of how Hitler's incarceration in Landsberg prison helped shape his political views, and eventually laid the foundations for the strong support system which led to his victory as leader of the Nazi party.
